

Since 2003, LDASEPA has held meetings every month, open to all, and often featuring an expert in the field of Lyme and other tick-borne diseases.

In order to best serve Lyme patients, and our community, LDASEPA has decided to shift our focus from in-person meetings to an on-line interactive format. This is a reflection of the way most people get information these days.

However, we see the value of a group meeting where Lyme patients and their caregivers can meet others going through the same struggles with their disease, and ask questions that our board members can often answer. Therefore, we will continue to provide support meetings four times a year, at our usual location at the Kennett Friends Meeting House in Kennett Square. The meetings will be in January, April, June, and October of each year, on the third Wednesday.

We may also hold special events for the public with presentations by Lyme disease experts. Watch our web site and Facebook for announcements.

And of course we will continue to educate the public with our many speaking engagements and our presence at various community events throughout the area.

Watch for a major upgrade of our web site, coming soon. We want to provide all the reliable information you have come to expect from LDASEPA over the past 15 years in a new, easier to navigate format. Our new site will also be much easier to use on mobile devices.

We always welcome your feedback and comments on what we are doing, so please let us know your thoughts.

Thank you for your continuing support as we work to help Lyme patients with reliable information, doctor suggestions, and public outreach.
